PROFESSIONAL SUMMARY

B.Tech Information Technology graduate and aspiring Full Stack/MERN Developer with hands-on experience building web applications using React.js, Node.js, Express.js, JavaScript, REST APIs, and SQL/NoSQL databases. Experienced in developing responsive user interfaces, backend APIs, authentication, database integration, and real-time applications. Strong foundation in Git/GitHub and software development practices, with additional exposure to Python, Django, and AI/ML technologies. Seeking an entry-level Full Stack/MERN Developer role to build scalable and user-focused web applications.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL
Frontend: React.js, HTML5, CSS3, Bootstrap
Backend: Node.js, Express.js
Databases: MongoDB, MySQL, PostgreSQL
Tools & Practices: Git, GitHub, REST APIs.
AI & Generative AI: Prompt Engineering, AI Image Generation

INTERNSHIP EXPERIENCE

AI & Prompt Engineering Intern **Dec 2025 – Mar 2026**
State Council of Educational Research and Training (SCERT), Govt. of Andhra Pradesh | Offline

- Developed educational resources including prompt engineering and AI-based image creation for primary and secondary level school textbooks under the LEAP (Learning Excellence in Andhra Pradesh) initiative.
- Demonstrated creativity, technical proficiency, and innovative contribution towards improving educational resources through Generative AI.
- Awarded Certificate of Appreciation by the Director, SCERT, Andhra Pradesh for excellent performance during the internship.

Artificial Intelligence & Machine Learning Intern **May 2025 – Jul 2025**
Blackbuck Engineers | Remote

- Built and deployed machine learning models using Python for predictive analytics tasks including classification and regression.
- Pre-processed and cleaned large datasets; handled missing values, normalization, and feature encoding to prepare data for model training.
- Evaluated model performance using metrics such as accuracy, precision, recall, and RMSE to ensure reliability.
- Integrated trained ML models into REST APIs, enabling real-time inference for end-user applications.
- Collaborated with team members using Git and GitHub, following Agile practices for iterative development.

PROJECTS

URL Shortener Web Application

Python, Django, SQL, HTML5, CSS3, JavaScript

• Developed a full-stack URL shortener using Django, SQL, HTML, CSS, and JavaScript with custom aliases, QR code generation, and configurable link expiration.
• Implemented user authentication and role-based access control (RBAC) to secure user-specific link management.
• Built an analytics dashboard to track click counts, referrers, and geolocation data, handling 500+ link records during testing.

Multi-Object Detection System for Real-Time Surveillance

Python, OpenCV, YOLOv5, Flask, WebSockets, PostgreSQL, React.js

- Engineered a real-time multi-object detection system using YOLOv5 and OpenCV to identify and track people and vehicles in live video

- Integrated Flask backend with WebSockets, achieving sub-100ms latency for live streaming and instant detection updates pushed to the React.js frontend.
- Designed PostgreSQL schema for detection metadata, event logs, and user activity — enabling audit trails and analytics queries across 10,000+ detection events.

EDUCATION

BTech in Information Technology 2022 – 2026

Dhanekula Institute of Engineering and Technology – Ganguru, AP | CGPA: 7.72 / 10

Intermediate – MPC 2022

Vijaya Kranti Junior College – Challapalli, AP | Grade: 70.3%

SSC 2020

Z.P. High School – Goginanipalam, AP | Grade: 85.4%

CERTIFICATIONS

Introduction to Databases (SQL) — *NxtWave CCBP Intensive* *May 2026*
Responsive Website Development (Bootstrap, Flexbox) — *NxtWave CCBP Intensive* *Apr 2026*
Static Website Development (HTML, CSS, Bootstrap) — *NxtWave CCBP Intensive* *Apr 2026*
AI & Prompt Engineering Internship Certificate — *SCERT, Govt. of Andhra Pradesh* *Dec 2025*
Artificial Intelligence & Machine Learning Training — *Blackbuck Engineers* Mar *2025*
Python Django Full-Stack Development — *Blackbuck Engineers* Mar *2024*

ACHIEVEMENTS & ACTIVITIES

- Awarded Certificate of Appreciation by SCERT, Andhra Pradesh (Govt. of AP) for outstanding contributions to AI-based educational resource development under the LEAP initiative.
- Contributed to MITS Club technical projects: Greenhouse Management System, MADD (Drone for Disaster Management), and THARA (Mini Robot).
- Competed in Dhanush2k25 Technical Events: Dirt Master, Tech Trix, and Scavenger Hunt.
